

"C" ALUMINUM ADHESIVE CABLE CLIP

Material: non-corrosive, non-magnetic and low electrical conductivity aluminum.

Color: aluminum.

Use temperature: -40°C / +60°C

Features: very light but also very sturdy, these clips allow a quick and easy fixing of the cables. They are very versatile and adapt to all types of industrial and do-it-yourself applications. They are not bulky, fold very easily and are suitable for use on surfaces subject to vibration. They can be applied to any surface, including wood, metal, plastic and glass. They feature a very high performance adhesive on both sides. For an optimal seal it is recommended to apply them on clean and degreased surfaces. In particular, these clips are suitable for round cables, both single and in bundles.

On request: they can be supplied in white or black and can be supplied without adhesive.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.
