

REOPENABLE BANDS WITH GRAINS ITEM: 3429

Codice EZ: request the code from our sales office

Material: polyethylene (PE), polyamide (PA), polypropylene (PP).

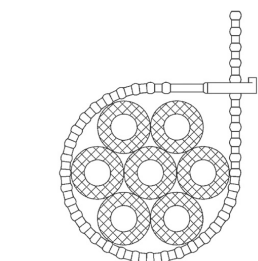

Color: black, natural or red.

Use temperature: max +85°C (PE and PA), -20°C / +75°C (PP)

Flammability: flame retardant and self-extinguishing UL94-V2 (PE and PA).

Features: these straps can be re-opened and therefore reusable and are used both in the binding and in the packaging field (also in the food sector). The polyethylene ties are distinguished by their high flexibility, those in polypropylene are distinguished by a better tightness when tightening, those in polyamide stand out for their maximum tightness when tightening and resistance to a higher temperature. Furthermore, the polyamide cable ties have greater resistance to chemicals and are suitable for outdoor use (black color).

On request: for quantity, the polyethylene ties can be supplied in blue or yellow color.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.
