

WIDE BANDS WITH SUPERIOR SEAL ITEM: CTP 290/60 NERE

Codice EZ: 311341

Material: halogen-free technopolymer.

Color: black.

Use temperature: -40°C / +85°C (with peaks up to +110°C)

Flammability: UL94-HB flame retardant.

Features: these clamps are used to perform fastenings where a superior seal is required. They are characterized by the particular flat shape of the head which limits the protrusion of the clamp. They are available with both single and double heads, for even more demanding applications. They have good resistance to bases, oils, greases, petroleum products and UV rays. They are particularly suitable for outdoor use and have excellent resistance to atmospheric agents and marine environments.

For correct tightening it is advisable to use our CLAMP PLIERS, article 0999.
