

ADJUSTABLE COLLARS WITH NEOPRENE COATING

Material: halogen-free polyamide with neoprene coating.

Color: black.

Use temperature: -10°C / +120°C

Flammability: flame retardant and self-extinguishing UL94-V2.

Features: these collars are distinguished by the neoprene coating which is useful in the case of tightening sensitive elements or elements subject to vibrations. They are equipped with a groove that allows you to adjust the internal width. They are suitable for clamping cables or cable bundles with Ø 1 - 32 mm. They have good resistance to aging, corrosion, ozone and UV rays. They are fixed on panels with screws.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.
