

CONICAL NEOPRENE LOCKING CABLE GLANDS

Material: neoprene.

Color: black.

Use temperature: -30°C / +90°C

Features: these cable glands have good heat resistance, do not break at low temperatures, have good resistance to grease, petrol, organic solvents and ozone; they have a good resistance to oils and an excellent resistance to aging. They are endowed with extraordinary flexibility and good electrical properties.

On request: they can be supplied complete with black cable ties and in the most suitable size for the diameter of the cable gland.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.
