

CABLE GUIDE WITH NEOPRENE MEMBRANE ITEM: HDG M 40

Codice EZ: 130704, CABLE SES-Sterling code: 02580015010.

Material: neoprene.

Color: black.

Use temperature: -30°C / +90°C

Features: during assembly, the membrane can be drilled according to the diameter of the cable, thus ensuring a good seal against dust. Furthermore, the cable gland can also act as a plug to close the holes in the sheets, if the exact exit part of the cable is not known a priori. These cable glands have good heat resistance, do not break at low temperatures, have good resistance to grease, petrol, organic solvents and ozone; they have a good resistance to oils and an excellent resistance to aging. They are endowed with extraordinary flexibility and good electrical properties.

On request: cable glands in other colors for quantities.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.
