

## INSULATING SILICONE SHEATH - "SILAVIA" SERIES -

### ITEM: AMS 1 bis BLU

**Codice EZ:** request the code from our sales office

Material: 2412 silicone, halogen-free.

Color: natural, clear, black, white, blue, green, yellow, brown, red or gray.

Use temperature: -80°C / +200°C

Features: this sheath offers good mechanical protection and good dielectric insulation. It is very soft and elastic and stands out for its resistance to high and low temperatures and for its excellent resistance to UV rays, ozone and aging. Up to the measurement with internal diameter of 7.5 mm it is treated internally with a lubricant that facilitates the sliding of the cables.

On request: this sheath is also available in the SILA type version which, unlike the AMS type sheath, is not elastic. It is very resistant (hardness  $70 \pm 5$  Sh A), has good resistance to hot water, steam and radiation up to 10 MRad. It is only available in transparent color and with the following internal diameters: 4, 6, 8, 10, 12 mm.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.

| ITEM          | Color | Ø est. min - max cable<br>mm | ØA mm | S mm | pack mt. |
