

THERMAL CUTTER WITH HANDLE (24W)

ITEM: FIL-3631

Codice EZ: 114161, THERMAL SES-Sterling code: 06250201000.

Voltage: 12V-24W.

Regulations and Certifications: CE, NF EN 60335-2-45.

Features: it is a suitable tool for cutting expandable braided sheaths; it works by means of an incandescent wire (heats up instantly) which cuts and welds the ends of the monofilaments of the sheaths at the same time. The process avoids the fraying of the ends that could occur through the use of normal scissors. This tool is the simplest of the range. It is gripped and works by means of the incandescent wire with a length of 150 mm. The complete tool consists of the bow handle, the transformer and 4 packs of 10 wires.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.
