

PERFORATED POLYAMIDE CAPS WITH FILTER - "HEYCO" SERIES -

ITEM: FIVP 1375 NERI

Codice EZ: request the code from our sales office, **PERFORATED** codice Heyco: 4931.

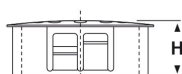

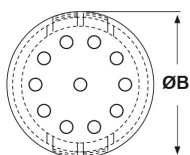

Material: caps in polyamide 6/6, filter in polyurethane foam.

Color: black.

Use temperature: -40°C / +105°C

Flammability: flame retardant and self-extinguishing UL94-V2.

Features: these caps have a convex head and are perforated to allow ventilation and heat dissipation. They are characterized by an internal filter which does not prevent the passage of air, but which limits the infiltration of dust, insects and liquids. The filter is able to filter particles with dimensions equal to or greater than 30 microns; it is firmly fixed inside the cap without using glues or other additives. Thanks to the fastening teeth, these caps snap on and adapt to the thickness of the frame up to a maximum indicated in the table.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.
