

RUBBER SLEEVES WITH SPECIAL LENGTHS - "HELAVIA" SERIES -

ITEM: AP 2-20

Codice EZ: 102424, RUBBER SES-Sterling code: 02010125010.

Material: neoprene 3490.

Color: black.

Use temperature: -30°C / +90°C

Flammability: flame retardant and self-extinguishing UL94-V0.

Features: the sleeves are very elastic and are the ideal solution for the insulation and protection of the ends of the conductors from dirt, corrosion and friction. They have a medium resistance to oils, petrol, ozone and aging. The assembly of the sleeves on the conductors is carried out using the 3-pronged pliers and is facilitated by the internal lubrication. The sleeves from AP 5 onwards are not internally lubricated; therefore, to facilitate the assembly of these on the calipers, it is advisable to use the lubricant LUB 2. These sleeves are supplied only on request.

On request: other colors and lengths intermediate or greater than 50 mm.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.

ITEM	Ø est. min - max cable mm	L mm	S mm	pack pcs.
