"MALE-MALE" PLASTIC THREADED SPACERS WITH SINGLE METAL THREAD

ITEM: DKMA-6-140

Codice EZ: 357633

Material: polystyrene for the body and galvanized steel for the thread.

Color: White.

Use temperature: max +90°C

Features: these spacers have a plastic body and metal thread. This gives them the insulation due to the plastic and, at the same time, the strength due to the metal insert. These spacers have a hexagonal body and are characterized by a single thread. The tolerance of the thread is +0/-0.2 mm on one side and +0/-1 mm on the other.

On request: for quantity, they can also be made to measure in other lengths.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.
