PLIERS FOR "SR" AND "ST" CABLE CLAMPS - "HEYCO" SERIES -

Features: these pliers greatly facilitate the installation of the "Heyco" series cable clamps. For the "SR" type cable clamps these pliers are used to crush the cable clamps "closing them" on the cables and thus insert them in the mounting holes. Each clamp is adjustable to suit the various sizes of the cable clamps. For the "ST" type cable clamps, on the other hand, these pliers are used to firmly close the cable clamps on the cables, and therefore pre-assemble them, in order to then be able to install them also at a later time or in a remote place.
