

tipologia di crimpaggio

PLIERS FOR POINTS - "EZ" SERIES -

Material: hardened steel body with plastic handle.

Features: these pliers are suitable for crimping both pre-insulated and non-insulated ferrules with a section from 0.25 to 16 mm². Very handy and compact, they are equipped with a ratchet device that guarantees optimal closure of the jaws and automatic reopening after crimping is complete. An emergency lever, in case of need, allows the reopening of the jaws before their total closure. They are characterized by a single central cavity. They require minimal effort for each crimp. They are also suitable for left-handers. They have laser-marked beaks with the appropriate sections. They guarantee excellent crimping. Weight: 0.40 Kg (VARIOCRIMP 4) / 0.60 Kg (VARIOCRIMP 16).

The drawing is indicative and the proportions may not correspond to the table or real dimensions.

ITEM	for tips with section mm ²	pack pcs.
VARIOCRIMP 4	0,25 - 4	1
VARIOCRIMP 16*	6 - 16	1

* For this crimping tool, the section must be set before crimping.
