

tipologia di crimpaggio

PINZE PER FASTON E INNESTI CILINDRICI NON ISOLATI - SERIE "ELPRESS" -

Material: hardened steel body with plastic handle.

Features: this pliers are suitable for crimping fastons and non-insulated cylindrical couplings with a section from 0.15 to 1.5 mm². Very handy and compact, it is equipped with a ratchet device that guarantees optimal closure of the jaws and automatic reopening after crimping is complete. An emergency lever, in case of need, allows the reopening of the jaws before their total closure. Requires minimal effort for each crimp. It has laser-marked beaks with the appropriate sections. Guarantees at least 50,000 crimps. This plier is certified by Elpress which verifies its quality (force impressed on the crimp, precision of movement, reliability, etc.). Weight: 0.45 kg, length: 192 mm, width: 66 mm.

The drawing is indicative and the proportions may not correspond to the table or real dimensions.

ITEM	for faston and cylindrical couplings with section mm ²	pack pcs.
