

## SCHEMA ARTICOLO

Articolo: BOL-SA M12.3.6 L - Codice EZ: request the code from our sales office

06/12/2025

The drawing is indicative and the proportions may not correspond to the table or real dimensions.

| ITEM             | Gasket | thread pitch | thread value | Ø est. min - max cable mm | key mm | H1 mm | H2 mm |
|------------------|--------|--------------|--------------|---------------------------|--------|-------|-------|
| BOL-SA M12.3.6 L | -SA    | Metric       | 12x1.5       | 3 - 6                     | 14/14  | 20    | 13    |

|                                                                                                                                                                                                               |                                                                                  |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| Material: pressacavo in ottone nichelato, O-Ring in Nitrile 70 Sh A, -SA in tefabloc 80 Sh A, -OT in tefabloc 80 Sh A, -FL2 in santoprene 64 Sh A (elemento esterno) e in nitrile 70 Sh A (elemento interno). | Gasket: -SA (sagomata), -OT (otturata), -FL2 (a "funny" lunga e a due elementi). |
| Use temperature: -25°C / +120°C                                                                                                                                                                               | IP protection: IP 68                                                             |

NB: if in the table, in the "key" column, there are two dimensions separated by "/" (example: 20/24), the first dimension corresponds to the HEAD of the cable gland, while the second to the BODY. In the case of a single size, it corresponds to both parties.
